

Foot Operated Grease Pump

This heavy-duty foot operated grease pump is designed for efficient lubrication. It features a robust steel construction and a flexible hose for reaching difficult-to-access grease fittings.

Product Overview

Professional Lubrication Solution

This heavy-duty foot-operated grease pump is engineered for high-efficiency lubrication in demanding industrial and automotive environments. Constructed with robust steel, it delivers high-pressure output to ensure reliable performance during routine maintenance. The included flexible hose allows for easy access to hard-to-reach grease fittings, making it an essential tool for workshops and maintenance facilities.

Technical Specifications

Operation Type	Foot Operated
Construction Material	Steel
Primary Applications	Industrial, Automotive, Maintenance, Workshop

Features

Key Features

- High-pressure output for effective lubrication
- Durable steel construction for long-term use
- Flexible hose for difficult-to-access fittings
- Ergonomic foot-operated design
