

Ford Ranger 2012 Front Bumper

This front bumper is designed for the 2012 Ford Ranger. Constructed from durable black plastic, it features integrated fog light housings and a central grille.

Product Overview

2012 Front Bumper

This premium front bumper is precision-engineered as a direct replacement for the 2012 vehicle model, ensuring a seamless fit and easy installation process. Constructed from durable, high-quality black plastic, it is built to provide robust protection to the vehicle's front end. The design features integrated fog light housings and a central grille to optimize airflow, combining aesthetic appeal with essential functionality that meets OEM performance standards.
