

Forged Brass Assorted Valves

These forged brass valves are designed for plumbing and industrial use. The assortment includes ball, gate, and stop valves in various sizes and configurations.

Product Overview

Professional Forged Brass Valve Assortment

This range of high-quality forged brass valves is engineered for reliable flow control in diverse industrial and plumbing applications. The collection includes a comprehensive selection of ball, gate, and stop valves designed for durability and secure sealing. These precision-crafted components ensure smooth operation and long-term performance across various system configurations.

Technical Specifications

Available Valve Types	Ball Valve, Gate Valve, Stop Valve, Compression Gate Valve
Construction Material	Forged Brass
Maximum Nominal Diameter	50 DN

Inventory and Models

Model Reference List

Model ID	Valve Type
HL-8110	Forging brass ball valve
HL-8111	Forging brass ball valve
HL-8112	Forging brass ball valve
HL-8113	Forging brass ball valve
HL-8201	Forging brass gate valve
HL-8202	Forging brass gate valve
HL-8203	Forging brass stop valve
HL-8204	Forging brass ball valve
HL-8205	Forging brass compression gate valve
HL-8206	Forging brass ball valve
