

Forged Cam Lock Quick Connect Couplings

Forged cam lock couplings facilitate swift and secure connections in industrial settings. Their cam groove design enables easy engagement and disengagement.

Product Overview

Industrial Quick Connect Couplings

These forged cam lock couplings are engineered for secure, rapid connection and disconnection in demanding industrial environments. Featuring a robust cam groove design, they provide high strength and reliable fluid transfer capabilities. Suitable for a wide range of machinery and industrial applications, these fittings offer excellent durability and corrosion resistance.

Manufacturing Capabilities

Machining Size Range

Dimension Type	Size
Maximum Size	1200mm x 6000mm
Minimum Size	100mm x 20mm

Annual Production Capacity

7000 tons
Annual Capacity

Compatible Materials

Carbon Steel, Stainless Steel, High-Speed Steel, Die Steel, High-Temperature Alloy Steel, Copper, Aluminum, Low-Carbon Alloy

Quality & Standards

Quality Certifications

GB16949
