

Forged Steel Agricultural Hook

This forged steel hook is designed for lifting and securing agricultural loads. It features a durable construction for reliable performance in demanding environments.

Product Overview

Forged Steel Agricultural Hook

This forged steel hook with a closed eye is engineered for heavy-duty lifting and securing tasks within agricultural environments. Its robust construction ensures reliable performance even in demanding outdoor conditions. Designed for versatility, it is an essential tool for towing, securing equipment, and managing materials on the farm.

Technical Specifications

Material	Forged Steel
Design Features	Closed Eye, Forged Construction
Safety Latch Included	No

Usage & Applications

Primary Applications

- Lifting agricultural loads
- Towing equipment
- Securing materials
