

# Forged Steel Eye Slip Hook

Forged eye slip hooks are designed for lifting and rigging applications. Constructed from high-strength steel, the hooks feature a durable finish for corrosion resistance.

## Product Overview

### High-Strength Forged Steel Eye Slip Hook

This forged steel eye slip hook is engineered for demanding lifting and rigging applications. Constructed from high-strength steel, it ensures reliability and safety in heavy-duty environments. The hook features a durable finish that provides excellent corrosion resistance, making it suitable for long-term use with chains and wire ropes.

## Technical Specifications

### Compatible With

- Chains
- Wire Ropes

### Primary Use

Lifting • Rigging

### Material

Forged Steel

### Finish

Self-colored, Zinc-plated
