

Forged Steel Pickaxe Head Replacement

This pickaxe head is forged from high-quality steel for exceptional strength and wear resistance. It features a pointed tip for breaking hard materials and a chisel end for prying.

Product Overview

Heavy-Duty Forged Steel Pickaxe Head

This replacement pickaxe head is engineered for demanding digging and breaking applications. Forged from high-quality steel, it offers superior strength and wear resistance to ensure longevity in tough working conditions. The dual-purpose design features a pointed tip for penetrating hard soil and rock, alongside a chisel end for efficient prying and splitting.

Technical Specifications

Material	Forged steel
Weight	2.5 kg
Surface Finish	Corrosion-resistant powder coating

Design Features

Suitable Applications

- Breaking hard soil
- Rock excavation
- Concrete breaking
- Prying and splitting

Design Features	Pointed tip, Chisel end, Oval eye
