

# Forged Steel Pickaxe with Chisel Blade

This heavy-duty pickaxe features a forged steel head with a pointed pick and a chisel blade. It is designed for demanding applications in construction, mining, and landscaping; handle not included.

## Product Overview

### Forged Steel Pickaxe with Chisel Blade

This heavy-duty pickaxe is engineered for demanding applications in construction, mining, and landscaping. Featuring a robust forged steel head, it incorporates a pointed pick on one end for breaking up hard materials and a chisel blade on the other for effective prying and splitting. Designed with a round eye, the head is built for secure mounting to a handle, providing a reliable tool for tough ground-breaking tasks.
