

Four-Bay Battery Charger

This is a four-bay battery charger designed for rechargeable batteries. It can charge multiple batteries simultaneously and is suitable for AA and AAA batteries.

Product Overview

Professional Four-Bay Battery Charger

This versatile four-bay battery charger is engineered for efficient, simultaneous charging of multiple rechargeable batteries. Its compact, durable white plastic housing makes it an ideal solution for professional environments requiring consistent power management. Designed to accommodate common battery sizes, it ensures reliable performance for daily operational needs.

Technical Specifications

Charging Bays	4
Compatible Battery Sizes	AA, AAA

Design and Build

Design Features

- Compact design
- Individual charging bays
- Metal contact terminals

Housing Material	Plastic
Color	White

Operational Capabilities

Simultaneous Charging	Yes
