

Four-Burner Propane Gas Grill with Side Burner

This is a four-burner gas grill with a black enamel hood and a stainless steel control panel. It features a side burner, a built-in thermometer, and a storage cabinet with two doors.

Overview

Professional Four-Burner Performance

This high-performance propane gas grill is engineered for efficiency and reliability in professional settings. Featuring four main burners and an additional side burner, it offers versatile cooking options and precise heat control. The durable cast iron and enamel construction ensures long-lasting performance, while the integrated ignition system provides quick and safe startup.

Performance Metrics

Nominal Heat Flow

10.55 kW

Nominal Heat Flow

Maximum Grid Temperature	450 °C
Time to Max Temperature	30 min

Technical Specifications

Number of Burners	4
Ignition System	Integrated
Propane Rate (G31)	1800 g/h

Construction & Materials

Grid Specifications

Component	Material	Dimensions
Grid	Cast Iron + Enamel	218mm x 420mm
Plancha	Cast Iron + Enamel	420mm x 254mm

Total Weight	43 kg
