

Four-Cylinder Turbocharged Diesel Engine

The R4105T series diesel engine is a robust and reliable power solution for a variety of industrial applications. This four-cylinder, water-cooled engine features a turbocharger for enhanced performance and efficiency.

Overview

Robust Power Performance

The R4105T series diesel engine is a robust and reliable power solution engineered for diverse industrial applications. This four-cylinder, water-cooled unit features a turbocharger designed to maximize performance and efficiency under heavy-duty conditions. Its compact footprint ensures versatility across generators, construction equipment, and agricultural machinery.

Technical Specifications

Engine Configuration	Four-cylinder, water-cooled
Aspiration	Turbocharged

Key Features

Build Quality

Durable Construction • Easy Maintenance • Long Service Life

Engine Highlights	Direct Fuel Injection, Efficient Combustion, Compact Design, Turbocharged
-------------------	---

Applications

Typical Industrial Uses

- Power Generators
- Construction Machinery
- Agricultural Equipment
- Heavy-duty Industrial Applications
