

Four-Drawer Stainless Steel Refrigerator with Casters

This stainless steel refrigerator features a four-drawer design. Casters provide mobility, and a temperature control panel is located on the side.

Overview

Professional Four-Drawer Refrigeration

This commercial-grade four-drawer stainless steel refrigerator is designed for high-efficiency kitchens requiring reliable cold storage. The unit features a durable stainless steel construction for long-term sanitation and maintenance ease. Equipped with industrial casters, it offers the mobility necessary for dynamic kitchen layouts and deep cleaning protocols.
