

Four Point Angular Contact Ball Bearing

135x189x26 mm

This angular contact ball bearing has bore diameter 135 mm, outer diameter 189 mm, and width 26 mm. It is suitable for machine tools, robotics and other precision machinery.

Product Overview

High-Precision Four-Point Angular Contact Ball Bearing

This four-point angular contact ball bearing is engineered for demanding industrial applications requiring high precision and reliability. Designed to efficiently manage combined radial and axial loads, this component offers exceptional performance and durability. Its optimized geometry ensures smooth operation and reduced friction, making it an ideal choice for robotics, machine tools, and precision machinery.

Dimensions

Dimensional Specifications

Parameter	Value	Unit
Inner Diameter (di)	135	mm
Outer Diameter (Di)	189	mm
Outer Diameter (Da)	259.36	mm
Width (b)	26	mm
Total Height (H)	35	mm
Inner Diameter (da)	187	mm
Pitch Diameter (d0)	248	mm
