

Four-Stroke Engine Brush Cutter

This brush cutter is equipped with a high-performance 4-stroke engine. It is designed for cutting through dense vegetation and overgrown areas with reliable power and reduced emissions.

Overview

Professional Performance

This 4-stroke brushcutter is a powerful and efficient tool engineered for clearing dense vegetation and overgrown areas. Featuring a 31cc high-performance engine, it delivers consistent torque and reliable power while maintaining lower emissions and fuel consumption than traditional 2-stroke alternatives. Designed with user comfort in mind, the unit includes an ergonomic handle and adjustable harness for extended operation with reduced fatigue.

Technical Specifications

Engine Type	4-Stroke
Engine Displacement	31 cc

Features

Key Benefits

- Reduced emissions
- Improved fuel efficiency
- Ergonomic handle design
- Adjustable harness
- High-torque performance

Intended Use	Professional Landscaping, Homeowner Maintenance, Vegetation Clearing
