

Four-Tine Pitchfork with D-Grip Handle

This four-tine pitchfork is designed for efficiently lifting and pitching loose materials. It features a D-shaped grip handle for comfortable and controlled use.

Product Overview

Professional Four-Tine Pitchfork

This durable four-tine pitchfork is engineered for efficient material handling, making it an essential tool for agricultural and landscaping tasks. Featuring a robust construction with a specialized D-grip handle, it provides superior control and leverage when lifting and pitching loose materials like hay, straw, or leaves. Its ergonomic design ensures comfort during extended use, while the high-quality materials guarantee long-term reliability in demanding work environments.
