

Four-Tine Pitchfork with D-Handle

This four-tine pitchfork is designed for lifting and moving loose materials. It features a metal head with pointed tines and a D-shaped handle for comfortable use in agricultural and gardening applications.

Product Overview

Professional Four-Tine Pitchfork

This durable four-tine pitchfork is designed for efficient lifting and moving of loose materials such as hay, straw, and compost. Featuring a robust metal head with four long, pointed tines, it offers excellent penetration and load-bearing capacity. The ergonomic D-shaped handle ensures a comfortable and secure grip, making it an ideal tool for demanding agricultural and gardening applications.
