

Four-Tine Steel Garden Fork with D-Handle

This garden fork is designed for turning, aerating, and loosening soil, as well as lifting and moving materials like compost and mulch. It features a durable steel head with four tines and a D-handle for a comfortable grip.

Overview

Professional Grade Garden Fork

This four-tine steel garden fork is an essential tool designed for efficient soil management, including turning, aerating, and loosening. Built for durability, it excels at lifting and moving heavy materials like compost and mulch with ease. The ergonomic D-handle design ensures a secure grip and maximum control, making it a reliable choice for both professional landscaping and home gardening tasks.
