

Four-Tube Halogen Space Heater

This halogen heater uses four halogen tubes to generate heat. It features multiple power settings and a safety grill.

Overview

Efficient Heating Solution

This four-tube halogen space heater offers a versatile and efficient solution for localized heating needs. Equipped with three adjustable power settings and wide-angle oscillation, it ensures comfortable heat distribution across any room. Designed with safety in mind, it includes an integrated tip-over switch and a protective grill, making it a reliable choice for professional or residential environments.
