

Four-Wheel Drive Agricultural Tractor

This four-wheel drive tractor is designed for agricultural tasks. It combines power and maneuverability for efficient field operations.

Product Overview

Robust Four-Wheel Drive Agricultural Tractor

This blue four-wheel drive tractor with distinctive orange wheels is engineered for heavy-duty agricultural environments. Equipped with a powerful engine and a safety-focused roll bar, it provides the reliability needed for long days in the field. Its four-wheel drive capability ensures superior traction and maneuverability across varied terrain.
