

# Four-Wheel Electric Mobility Scooter with Adjustable Seat

This electric mobility scooter is designed for enhanced maneuverability and user comfort. Its four-wheel configuration provides stability, while the adjustable seat and front basket add convenience.

## Overview

### Robust Mobility Solution

The JC-EM403 is a reliable four-wheel electric mobility scooter engineered for stability, comfort, and maneuverability. Featuring an adjustable seat and intuitive control panel, it offers a smooth driving experience for daily use. With a 45km range and climbing capability of 15 degrees, this scooter is designed to provide independence and consistent performance.

## Performance

### Motor Power

**450 W**

Motor Output

**24 V**

Voltage

### Speed Capabilities

**18 km/h**

Max Forward Speed

**8 km/h**

Max Backward Speed

### Climbing Capability

15 degrees

## Battery & Charging

### Battery Specifications

- Capacity: 12V 40Ah \*2
- Recharge Time: 6-8 hours
- Recharge Cycle: ~300 times

### Charger Input Voltage

110-240V AC

## Physical Dimensions

### Product Dimensions

Metric	Value
Product Size	1200 x 620 x 980 mm
Carton Size	1370 x 770 x 1040 mm

### Weight

**90 kg**

Gross Weight

**85 kg**

Net Weight

## Technical Details

Certifications	CE
Braking System	Electromagnetism
