

Four-Wheel Mobility Scooter with Adjustable Armrests

This four-wheeled mobility scooter has a red finish and is designed for both indoor and outdoor use. It features a padded seat with adjustable armrests, a front basket, and a tiller steering system.

Product Overview

Designed for Independence

This four-wheeled mobility scooter is engineered to provide enhanced mobility and independence for individuals with limited mobility. Featuring a robust design suitable for both indoor and outdoor environments, it combines stability with ease of use. The compact frame ensures excellent maneuverability, while the adjustable armrests and padded seat prioritize user comfort.
