

# Four-Wheeled Tractor with Synchronmesh Gear

This four-wheeled tractor is equipped with a dual-function clutch and synchronmesh gear. It also features power steering, a fiberglass hood and fenders, and twin turning speeds of P.T.O.

## ADDITIONAL IMAGES

## Overview

### G2 Series Agricultural Tractor

The G2 Series tractor offers a versatile and robust solution for agricultural operations, featuring a 25-40HP range suitable for varied farming tasks. Equipped with a synchronmesh gearbox, shuttle shift, and full hydraulic power steering, it ensures efficient operation and operator comfort. This 4WD machine is built for durability, supporting a wide range of implements with its reliable hydraulic system and dual-function clutch.

## Key Features

### Key Features

4WD, Synchronmesh Gearbox, Shuttle Shift, Power Steering, Dual-function Clutch, Fiberglass Hood & Fenders, Folding ROPS

## Dimensions and Weight

### Model Specifications

| Model    | Dimensions (LxWxH mm) | Wheel Base (mm) | Mass (kg) |
|----------|-----------------------|-----------------|-----------|
| DF-254G2 | 3380x1530x1520        | 1732            | 1650      |
| DF-304G2 | 3380x1530x1520        | 1732            | 1650      |
| DF-404G2 | 3515x1575x1590        | 1900            | 1780      |

## Engine Performance

### Engine Technical Data

| Model    | Engine Model | Rated Power (kW) | Displacement (L) |
|----------|--------------|------------------|------------------|
| DF-254G2 | KM385BT      | 18.4             | 1.532            |
| DF-304G2 | ZN390T       | 22.0             | 1.813            |
| DF-404G2 | ZN490BT      | 29.4             | 2.545            |

## Hydraulic and PTO

### Hydraulic System

- 3-Point Suspension Category: I
- PTO Rotating Speed: 540/1000 rpm
- Spline Size: 6-D35 Rectangular Spline

### Lifting Capacity

**432 kg**

DF-254G2 Capacity

**496 kg**

DF-304G2 Capacity

**665 kg**
