

Four-Zone Electric and Induction Cooktop

This electric and induction cooktop features four heating zones. It is designed for built-in installation and has a smooth, black surface.

Product Overview

Professional Four-Zone Cooktop

This versatile cooktop features four distinct heating zones, combining both electric and induction technology for efficient and precise cooking. Designed for seamless built-in installation, its sleek black finish and smooth surface offer a modern aesthetic that is easy to clean and maintain. Equipped with side-mounted control knobs, it provides intuitive heat level adjustments suitable for demanding kitchen environments.
