

Frameless Glass Door Pivot Hinge

This glass door pivot hinge is designed for frameless glass doors. It features a durable metal construction with a brushed finish and black rubber gaskets to securely hold the glass.

Product Overview

Professional Frameless Glass Door Pivot Hinge

The NFRGH-SA8300F-1 is a high-quality pivot hinge engineered specifically for frameless glass door applications. Featuring a robust metal construction with a sophisticated brushed finish, this hinge ensures both durability and aesthetic appeal. It includes integrated black rubber gaskets designed to securely grip glass panels, facilitating smooth and reliable pivoting action for shower doors, display cases, and architectural glass installations.
