

Frameless Glass Shower Door Floor Guide

This circular floor guide is designed for frameless glass shower doors. Constructed from durable stainless steel, it ensures smooth, quiet sliding and prevents lateral movement.

Product Overview

Frameless Glass Shower Door Floor Guide

This circular stainless steel floor guide is designed specifically for frameless glass shower doors. Its low-profile construction ensures smooth, quiet sliding door operation while effectively preventing lateral movement. Built from durable materials, it provides reliable stability and long-lasting performance even in demanding wet bathroom environments.

Technical Specifications

Material	Stainless Steel
Design Features	Low Profile, Circular, Corrosion Resistant

Performance

Operational Benefits
