

Freestanding Backlit Advertising Light Box

This freestanding light box display is used for advertising and promotional purposes. It features a backlit panel that illuminates a graphic or poster.

Product Overview

Premium Freestanding Backlit Display

This freestanding advertising light box is designed to maximize visual impact for promotional content. Featuring a sleek black frame and a stable floor-standing base, it provides a professional, illuminated platform for posters and graphics. The backlit technology ensures your displayed content is vibrant and highly visible in any environment, making it an ideal solution for retail, exhibitions, and trade shows.
