

Freestanding Gas Cooktop with Storage

This freestanding unit combines a gas cooktop with a storage base. It features two gas burners on the cooktop and four storage drawers below, with a ventilation hood positioned above.

Product Overview

Professional Kitchen Integration

This freestanding gas cooktop unit combines essential cooking functionality with integrated storage solutions, making it an efficient choice for compact kitchen environments. Featuring a durable stainless steel finish, the unit includes two high-performance gas burners alongside a convenient four-drawer storage system. The inclusion of an overhead range hood ensures proper ventilation, providing a comprehensive cooking station in a single, streamlined appliance.
