

# Freestanding Hot and Cold Water Dispenser

This freestanding water dispenser provides both hot and cold water. It features a drip tray for easy cleaning and indicator lights to show water temperature status.

## Overview

### Versatile Hydration Solution

This freestanding water dispenser provides both hot and cold water options, making it a highly practical choice for professional offices or residential spaces. Its compact design ensures a space-efficient installation while maintaining durability for daily high-traffic use. Equipped with convenient status indicator lights and a removable drip tray, this unit prioritizes user convenience and easy maintenance.
