

Freestanding Hot and Cold Water Dispenser

This freestanding water dispenser provides both hot and cold water. It features dual spigots with red and blue indicators for convenient access to temperature-controlled water, suitable for office or home use.

Product Overview

Efficient Hydration Solution

This freestanding water dispenser is designed for seamless integration into both office and home environments. It provides immediate access to both hot and cold water, controlled via intuitive dual spigots with clear color-coded indicators. With its clean white exterior finish, this unit combines functionality with a minimalist aesthetic to suit any professional or residential space.
