

Freestanding Hot and Cold Water Dispenser

This freestanding water dispenser provides both hot and cold water. It features a dual-section design with a control panel.

Product Overview

Versatile Water Dispensing Solution

This freestanding water dispenser is designed to provide convenient access to both hot and cold water in professional or residential settings. Featuring a sleek metallic silver frame complemented by decorative burgundy panels, it offers a modern aesthetic that fits well in offices, breakrooms, or homes. The unit is equipped with an intuitive top control panel and indicator lights for easy operation and status monitoring.
