

Freestanding Hot and Cold Water Dispenser

This freestanding water dispenser provides both hot and cold water. It is designed for use with standard 3 or 5-gallon water bottles.

Product Overview

Professional Water Dispenser

This freestanding water dispenser is designed to provide convenient access to both hot and cold water in home or office environments. It features a modern, clean aesthetic with a white finish and black accents that fits seamlessly into professional spaces. The unit is engineered for reliability and safety, including a dedicated child safety lock on the hot water tap.
