

Freestanding Hot and Cold Water Dispenser

This freestanding water dispenser offers both hot and cold water dispensing. It features a top-loading design and a storage compartment.

Product Overview

Efficient Hydration Solution

The YLR2-5D3 freestanding water dispenser offers a convenient and reliable solution for office or home hydration needs. Designed with both hot and cold water taps, it ensures users have immediate access to temperature-controlled water. Its classic white cabinet design and top-loading mechanism make it a straightforward and functional addition to any professional environment.
