

Freestanding Hot and Cold Water Dispenser

This freestanding water dispenser provides both hot and cold water. It is designed for indoor use and features dual spouts with hot and cold indicators, a drip tray, and a cabinet base.

Overview

Professional Water Dispenser Solutions

This freestanding water dispenser is designed for efficient hydration in office, home, and public environments. Available in two cooling configurations—compressor or electronic—it provides reliable access to both hot and cold water. With a robust heating capacity and optional storage or refrigeration bases, this unit is built to meet high-demand daily usage requirements.
