

Freestanding Wine Refrigerator

This wine refrigerator offers precise temperature control for optimal wine storage. It has a capacity of 438L and can be configured for either single or dual temperature zones.

Overview

Professional Grade Wine Preservation

This premium freestanding wine refrigerator is engineered for optimal wine storage, featuring advanced air-cooled technology and a high-grade beech wood shelving system. With options for both single and dual-temperature zones, it provides the perfect climate control to preserve the integrity of your collection. Its seamless stainless steel construction and anti-condensation glass door make it a sophisticated addition to any professional or high-end residential setting.
