

Freestanding Wine Refrigerator with Wooden Shelves

This wine refrigerator features a frost-free design and a specialized wine-storage environment. It has an anti-sweating glass door, grainy colored sheet, archaized design and a safety door lock.

Product Overview

Professional Wine Preservation

This freestanding wine refrigerator is designed to create a specialized environment for optimal wine storage and aging. Featuring an elegant wood-grain finish and durable wooden shelves, it protects wine integrity by maintaining precise temperature conditions and ensuring proper cork hydration. The frost-free design and anti-sweating glass door provide a seamless, high-quality user experience for any professional or enthusiast setting.
