

Freestanding Wine Refrigerator with Wooden Shelves

This freestanding wine refrigerator is designed with a stainless steel frame and glass door. It includes multiple wooden shelves for bottle storage and a top rack for wine glasses, ensuring optimal temperature control.

Overview

Professional Wine Storage Solution

This freestanding wine refrigerator provides a refined storage environment for up to 165 bottles. Featuring an elegant smoked tempered glass door and beech wooden shelving, it combines aesthetic appeal with precise digital temperature control ranging from 5 to 22 degrees Celsius. Whether installed as a freestanding unit or integrated into cabinetry, it offers the ideal climate for wine preservation.
