

Freestyle BMX Bike with 20-inch Wheels

This BMX bicycle is equipped with a sturdy frame, designed for performing tricks and stunts. It features 20-inch wheels and a single-speed drivetrain for durability.

Overview

Built for Performance and Durability

This 20-inch freestyle BMX bike is engineered for riders seeking a reliable and sturdy machine for tricks and stunts. Featuring a robust steel frame and fork construction, it offers the durability required for freestyle riding. With a simplified single-speed drivetrain and responsive V-brakes, this bike provides excellent control and ease of maintenance for everyday use.
