

Fruit and Vegetable Juice Extractor

This juicer efficiently extracts juice from various fruits and vegetables. It features a powerful motor, a large feeding chute, a stainless steel filter, and a detachable pulp container.

Overview

Professional Juice Extraction

The GS-328E is a high-performance kitchen appliance engineered for efficient juice extraction from a wide variety of fruits and vegetables. Designed with a powerful motor and a large feeding chute, it streamlines preparation by accommodating whole produce. Its compact footprint and stainless steel filtration system ensure a professional-grade, pulp-free output suitable for any commercial or professional kitchen environment.
