

Fruit and Vegetable Juice Extractor

This juicer efficiently extracts juice from fruits and vegetables. It is equipped with a powerful motor and a large feeding tube to accommodate whole produce, minimizing prep time.

Product Overview

Efficient Juice Extraction

This professional-grade juice extractor is designed for high-efficiency processing of a wide variety of fruits and vegetables. Featuring a robust stainless steel construction, it offers both durability and a sleek aesthetic suitable for commercial or high-volume kitchen environments. The unit includes user-friendly features like a large feeding tube to minimize prep time, multiple speed settings for precision, and a detachable pulp container for streamlined cleaning.
