

Fruit and Vegetable Juice Extractor

This juice extractor efficiently extracts juice from various fruits and vegetables. It features a durable stainless steel finish, a feeding chute, a juice spout, and a pulp container.

Product Overview

Professional Juice Extraction

This high-performance juice extractor is designed for efficiency and ease of use, featuring a powerful 1000W motor and a large 75mm feeding tube that accommodates whole fruits like apples and pears. Engineered with a durable stainless steel blade and filter system, it ensures optimal juice yield while maintaining a sleek, modern aesthetic. The unit includes a 2.0L pulp container and dishwasher-safe components, making it an ideal choice for busy commercial or home kitchens.
