

Fuel Dispenser

Fuel dispensers are machines at filling stations. They pump fuels such as gasoline, diesel, CNG, and others into vehicles.

Product Overview

Professional Fuel Dispenser

This high-performance fuel dispenser is designed for efficient fuel management at commercial and retail filling stations. It supports a wide range of fuel types including gasoline, diesel, and alternative fuels like LPG and CNG. The unit features a clear digital display for monitoring sales, volume, and pricing to ensure accurate transactions.
