

Fuel Dispenser with Electronic Technology

This fuel dispenser features advanced electronic technology for safety and stability. Its high-precision flow meter ensures outstanding performance with minimal malfunctions, making it suitable for various fueling applications.

Product Overview

Advanced Electronic Fuel Dispensing Solution

The C MAN Series Fuel Dispenser integrates the latest 6200 main board electronic technology to provide a high-security, stable, and user-friendly fueling experience. Designed for durability in harsh environments, it features a waterproof and dustproof shell with a high-precision flow meter capable of a 10,000,000-liter life cycle. This versatile system supports intelligent voice broadcasts and POS smart upgrades, making it an ideal choice for modern commercial fueling facilities.
