Product Overview

Professional Fuel Dispensing Solution

This fuel dispenser is engineered for accurate and reliable fluid transfer in commercial environments. It features robust construction designed to withstand demanding conditions, ensuring long-term durability. The system integrates advanced metering and pumping technology, providing precise measurement and efficient operation for various fueling applications.

Standard Configuration

Meter Type	MJ-55 Meter
Pump Type	ZCH-50 Gear Pump
Motor Specification	AC380V±20% 50HZ
Hose Specifications	3/4 inch, 4 meters
Automatic Nozzle	TD-20A

Advanced Configurations

Available Meter & Pump Combinations

- MJ-65 Meter + ZYB-50 Vane Pump
- MJ-85S Meter + ZCB-90 Gear Pump
- MJ-85S Meter + QYB-240R Submersible Pump

Motor Specification	AC220V±20% 50HZ
Automatic Nozzle Model	XIDE-80

Features

Safety & Convenience	Breakaway Valve, Swivel Connector
