

Fuel Dispensing Nozzle with Lever Control

This fuel dispensing nozzle is designed for use at gas stations. It features a lever mechanism for controlling fuel flow.

Product Overview

Professional Fuel Dispensing Solution

This fuel dispensing nozzle is engineered for reliable and safe fuel delivery at gas stations and commercial refueling facilities. Featuring a durable yellow plastic body and a responsive trigger handle, it ensures precise control over fuel flow. The flexible metallic spout provides the versatility needed for efficient refueling of various automotive vehicles.

Technical Specifications

Control Mechanism	Lever control
Body Material	Plastic
Spout Type	Flexible metallic

Usage & Application

Compatible Fuels

- Gasoline
- Automotive fuels

Primary Applications	Gas stations, Automotive refueling, Commercial fuel delivery
