

Fuel Dispensing Unit with Digital Display

This fuel dispensing unit is designed for industrial and commercial use. It features a high-accuracy flow meter and a digital display for clear transaction data.

Overview

Industrial Fuel Dispensing Solution

The JDK50D90-800L is a self-contained fuel dispensing unit engineered for reliable performance in demanding industrial and commercial environments. Featuring a high-accuracy flow meter and integrated digital display, it ensures precise transaction tracking and inventory control. Built for durability, the unit includes robust security features and weather-resistant housing to withstand heavy usage and harsh conditions.

Technical Specifications

Fuel Capacity

800 L

Capacity

Safety Features

- Overfill protection
- Emergency shut-off valves
- Secure locking mechanism

Display Capabilities

- Volume dispensed
- Total cost

Compatible Fuels

Gasoline, Diesel

Construction & Design

Build Quality

Weatherproof Enclosure • Heavy-duty Construction

Installation

Compact design for easy integration into existing systems
