

# Fuel Injection Nozzle DSLA140P1142

This fuel injection nozzle is engineered for common rail diesel systems. It optimizes fuel atomization and spray processes for efficient combustion and enhanced engine performance.

## Product Overview

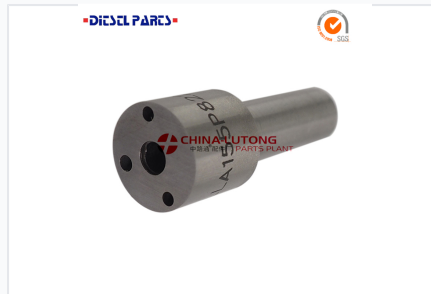

### High-Performance Fuel Injection Nozzle

This fuel injection nozzle is engineered for optimal fuel atomization and spray processes, which are critical for diesel engine performance and emissions control. Designed for common rail fuel systems, it ensures precise fuel delivery into the combustion chamber. Built with durable steel, this component is a reliable replacement part for maintaining engine efficiency and longevity.

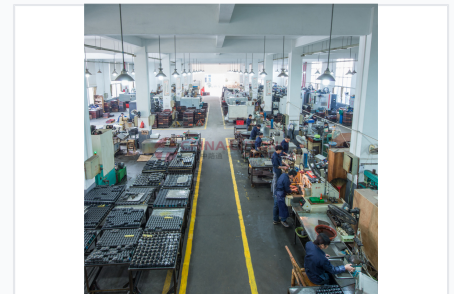

## Technical Specifications

Precision-engineered nozzle designed for optimal atomization.

Durable construction designed for high-pressure diesel systems.

High-precision nozzle component for reliable engine performance.

Body Material	Steel
Fuel Type	Diesel
Cylinder Configuration	Multi-cylinder
Carburettor Type	Downdraft
Stroke	Standard
Weight	0.04 kg
HS Code	84099199

## Compliance & Warranty

Certifications	ISO9001, TS16949
Warranty	6 Months

## Compatibility Reference

### Reference Models

Item	Reference No.	Stumping No.
Injector Nozzle	105007-1120	DN0PDN112
Injector Nozzle	093400-8220	DN0PDN121
Injector Nozzle	093400-5571	DN4PD57
Injector Nozzle	093400-5500	DLLA160P50
Injector Nozzle	0 434 250 063	DN0SD193
