Product Overview

Precision-engineered fuel injector assembly for Carter C7 engines.

Professional Fuel Delivery

This fuel injector 387-9428 is a critical component engineered specifically for the Carter C7 engine. It is designed to deliver precise fuel amounts for optimal combustion efficiency in demanding construction machinery and excavators. Built with high-quality steel, this component ensures reliable operation, improved engine power, and consistent fuel atomization.

Technical Specifications

Nozzle Hole Count	6
Material	Steel
Key Components	Slide valve, Solenoid valve
