

Fuel Injector Shim Kit

Precision shim kits are designed for Bosch fuel injectors, including models B26, B14, B13, B16, and B22. Each kit contains shims with specified diameters and accuracy for precise fuel injector calibration.

Product Overview

Precision Calibration Kits

These high-precision fuel injector shim kits are essential for maintaining optimal fuel delivery and engine performance. Each kit is engineered to provide exact calibration, ensuring reliability for professional engine maintenance and repair. Designed for accuracy and durability, these kits support a wide range of injector models, helping technicians achieve precise fuel system adjustments.

Technical Specifications

Calibration Accuracy

- 0.010 mm
- 0.020 mm

Included Models

B26, B14, B13, B16, B22

Compatibility Details

Shim Model Specifications

Model	Dimensions (mm)	Accuracy (mm)
B26	2.3 / 4.2	0.010
B14	3.4 / 5.5	0.020
B13	2.3 / 4.2	0.020
B16	2.28	0.010
B22	4.8 / 7.7	0.020
