

Full Automatic Front-Load Washing Machine

This front-load washing machine is designed for household use. It features a digital display and multiple wash programs to cater to different fabric types.

Overview

Advanced Front-Load Washing Technology

This full-automatic front-load washing machine combines precision engineering with user-friendly operation. Featuring a high-performance microprocessor, NTC temperature sensing, and a stainless steel inner barrel, it ensures thorough cleaning while maintaining fabric integrity. With energy-efficient operation and a comprehensive suite of safety and convenience features like power-off memory and fault alarms, it is designed for reliable, long-term household use.
