1"	25	78	68	72

## Product Overview

### Full Bore Brass Ball Valve

This high-performance full bore brass ball valve is designed for reliable flow control in demanding industrial and commercial applications. Featuring a durable brass construction and an aluminium butterfly handle, it offers excellent longevity and ease of operation. With a pressure rating of PN64, it ensures secure performance across a range of system requirements.

## Technical Specifications

Pressure Rating	PN64
Body Material	Brass
Handle Type	Aluminium Butterfly Handle
Connection Type	F/F (Female/Female)
Available Sizes	1/2", 3/4", 1"
